Earnings per security (EPS)

10. Details of basic and diluted EPS reported separately in accordance with paragraph 9 and 18 of *AASB 1027: Earnings Per Share* are as follows.

The loss used as the numerator in calculating basic EPS is \$7,906,000 as per Item 1.11.

The weighted average number of ordinary shares of the entity used as the denominator in calculating diluted EPS is 92,000,000. The difference between this amount and the denominator in calculating the basic EPS of 88,900,000 is made up of:

<u>Description</u>	Quantity	Exercise Price	Expiry
- Executive & Employee Share Options	2,360,000	93.75 ¢	28/09/02
- Employee Share Options	300,000	93.75 ¢	31/12/05
- Employee Share Options	240,000	93.75 ¢	11/04/07
- Issue to Consultants*	200,000	93.75 ¢	11/04/04

There were no converted, lapsed or cancelled potential ordinary shares included in the calculation of diluted EPS.

There were no potential ordinary shares that were not dilutive and therefore not used in the calculation of dilutive EPS.

There were no conversions to, calling of, nor subscription for, ordinary shares occurring between the reporting date and the time of completion of the financial report.

There were no issues of potential ordinary shares occurring between the reporting date and the time of completion of the financial report.

Notes

- 1. **For announcement to the market** The percentage changes referred to in this section are the percentage changes calculated by comparing the current period's figures with those for the previous corresponding period. Do not show percentage changes if the change is from profit to loss or loss to profit, but still show whether the change was up or down. If changes in accounting policies or procedures have had a material effect on reported figures, do not show either directional or percentage changes in profits. Explain the reason for the omissions in the note at the end of the announcement section. Entities are encouraged to attach notes or fuller explanations of any significant changes to any of the items in page 1. The area at the end of the announcement section can be used to provide a cross reference to any such attachment.
- 2. **True and fair view** If this report does not give a true and fair view of a matter (for example, because compliance with an Accounting Standard is required) the entity must attach a note providing additional information and explanations to give a true and fair view.

3. Condensed consolidated statement of financial performance

- Item 1.1 The definition of "revenue" and an explanation of "ordinary activities" are set out in AASB 1004: Revenue, and AASB 1018: Statement of Financial Performance.
- Item 1.6 This item refers to the total tax attributable to the amount shown in item 1.5. Tax includes income tax and capital gains tax (if any) but excludes taxes treated as expenses from ordinary activities (eg, fringe benefits tax).
- 4. **Income tax** If the amount provided for income tax in this report differs (or would differ but for compensatory items) by more than 15% from the amount of income tax *prima facie* payable on the profit before tax, the entity must explain in a note the major items responsible for the difference and their amounts. The rate of tax applicable to the franking amount per dividend should be inserted in the heading for the column "Franked amount per security at % tax" for items 15.4 to 15.7.

5. Condensed consolidated statement of financial position

Format The format of the consolidated statement of financial position should be followed as closely as possible. However, additional items may be added if greater clarity of exposition will be achieved, provided the disclosure still meets the requirements of *AASB 1029: Interim Financial Reporting*, and *AASB 1040: Statement of Financial Position*. Also, banking institutions, trusts and financial institutions may substitute a clear liquidity ranking for the Current/Non-Current classification.

Basis of revaluation If there has been a material revaluation of non-current assets (including investments) since the last [†]annual report, the entity must describe the basis of revaluation adopted. The description must meet the requirements of *AASB 1010: Accounting for the Revaluation of Non-Current Assets*. If the entity has adopted a procedure of regular revaluation, the basis for which has been disclosed and has not changed, no additional disclosure is required.

6. **Condensed consolidated statement of cash flows** For definitions of "cash" and other terms used in this report see *AASB 1026: Statement of Cash Flows*. Entities should follow the form as closely as possible, but variations are permitted if the directors (in the case of a trust, the management company) believe that this presentation is inappropriate. However, the

⁺ See chapter 19 for defined terms.

- presentation adopted must meet the requirements of AASB 1026. +Mining exploration entities may use the form of cash flow statement in Appendix 5B.
- 7. **Net tangible asset backing** Net tangible assets are determined by deducting from total tangible assets all claims on those assets ranking ahead of the ⁺ordinary securities (ie, all liabilities, preference shares, outside ⁺equity interests etc). ⁺Mining entities are *not* required to state a net tangible asset backing per ⁺ordinary security.
- 8. **Gain and loss of control over entities** The gain or loss must be disclosed if it has a material effect on the [†]accounts. Details must include the contribution for each gain σ loss that increased or decreased the entity's consolidated profit (loss) from ordinary activities and extraordinary items after tax by more than 5% compared to the previous corresponding period.
- 9. **Rounding of figures** This report anticipates that the information required is given to the nearest \$1,000. If an entity reports exact figures, the \$A'000 headings must be amended. If an entity qualifies under ASIC Class Order 98/0100 dated 10 July 1998, it may report to the nearest million dollars, or to the nearest \$100,000, and the \$A'000 headings must be amended.
- 10. **Comparative figures** Comparative figures are to be presented in accordance with AASB 1018 or AASB 1029 Interim Financial Reporting as appropriate and are the unadjusted figures from the latest annual or half year report as appropriate. However, if an adjustment has been made in accordance with an accounting standard or other reason or if there is a lack of comparability, a note explaining the position should be attached. For the statement of financial performance, AASB 1029 Interim Financial Reporting requires information on a year to date basis in addition to the current interim period. Normally an Appendix 4B to which AASB 1029 Interim Financial Reporting applies would be for the half year and consequently the information in the current period is also the year to date. If an Appendix 4B Half yearly version is produced for an additional interim period (eg because of a change of reporting period), the entity must provide the year to date information and comparatives required by AASB 1029 Interim Financial Reporting. This should be in the form of a multi-column version of the consolidated statement of financial performance as an attachment to the additional Appendix 4B.
- 11. **Additional information** An entity may disclose additional information about any matter, and must do so if the information is material to an understanding of the reports. The information may be an expansion of the material contained in this report, or contained in a note attached to the report. The requirement under the listing rules for an entity to complete this report does not prevent the entity issuing reports more frequently. Additional material lodged with the +ASIC under the Corporations Act must also be given to ASX. For example, a director's report and declaration, if lodged with the +ASIC, must be given to ASX.
- **12. Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if one exists) must be complied with.
- 13. **Corporations Act financial statements** This report may be able to be used by an entity required to comply with the Corporations Act as part of its half-year financial statements if prepared in accordance with Australian Accounting Standards.
- 14. **Issued and quoted securities** The issue price and amount paid up is not required in items 18.1 and 18.3 for fully paid securities.

+ See chapter 19 for defined terms.

Details of expenses AASB 1018 requires disclosure of expenses from ordinary activities according to either their nature or function. For foreign entities, there are similar requirements in other accounting standards accepted by ASX. AASB ED 105 clarifies that the disclosures required by AASB 1018 must be either all according to nature or all according to function. Entities must disclose details of expenses using the layout (by nature or function) employed in their +accounts.

The information in lines 1.23 to 1.27 may be provided in an attachment to Appendix 4B.

Relevant Items AASB 1018 requires the separate disclosure of specific revenues and expenses which are not extraordinary but which are of a size, nature or incidence that disclosure is *relevant* in explaining the financial performance of the reporting entity. The term "relevance" is defined in AASB 1018. There is an equivalent requirement in AASB 1029: Interim Financial Reporting. For foreign entities, there are similar requirements in other accounting standards accepted by ASX.

Dollars If reporting is not in A\$, all references to \$A must be changed to the reporting currency. If reporting is not in thousands of dollars, all references to "000" must be changed to the reporting value.

17. **Discontinuing operations**

Half yearly report

All entities must provide the information required in paragraph 12 for half years beginning on or after 1 July 2001.

Preliminary final report

Entities must either provide a description of any significant activities or events relating to discontinuing operations equivalent to that required by paragraph 7.5 (g) of AASB 1029: Interim Financial Reporting, or, the details of discontinuing operations they are required to disclose in their ⁺accounts in accordance with AASB 1042 Discontinuing Operations.

In any case the information may be provided as an attachment to this Appendix 4B.

18. **Format**

This form is a Word document but an entity can re-format the document into Excel or similar applications for submission to the Companies Announcements Office in ASX.
