

# ASX ANNOUNCEMENT

# **Quarterly Cashflow Report**

**Melbourne, Australia; 31 July 2014:** Starpharma Holdings Ltd (ASX: SPL, OTCQX: SPHRY) today released its Appendix 4C – Quarterly Cashflow report for the period ended 30 June 2014.

The cash balance at 30 June 2014 was \$24.0 million, after a net cash burn of \$9.8 million for the full year.

Expenditures for the quarter include costs related to the clinical activities of both the DEP<sup>TM</sup> docetaxel Phase 1 trial and the Phase 3 clinical trials for VivaGel<sup>®</sup> to prevent recurrent bacterial vaginosis (BV).

The DEP<sup>TM</sup> docetaxel Phase 1 trial is progressing well with recruitment underway at three sites in Australia. A number of patients having already received multiple cycles of DEP<sup>TM</sup> docetaxel treatment and results so far indicate very good tolerability and no evidence of neutropenia.

Earlier this month, the US Food and Drug Administration (FDA) granted Starpharma a Special Protocol Assessment (SPA) agreement on the design and planned analyses of the Phase 3 clinical studies of VivaGel® for the prevention of recurrent BV. During the year ended June 30 extensive trial start-up activities were completed by Starpharma and its appointed research organisation, Quintiles, to expedite trial commencement. These include site selection, regulatory and ethics submissions and ethic approvals at multiple sites, investigators' meetings and preparation of trial materials.

The major regulatory milestone of Conformity Assessment Certification for the VivaGel<sup>®</sup> condom by the Australian Therapeutic Goods Administration (TGA) was achieved subsequent to the end of the quarter, with product launch in Australia expected in the coming months, following listing on the Australian Register of Therapeutic Goods (ARTG).

#### **ABOUT STARPHARMA**

Starpharma Holdings Limited (ASX:SPL, OTCQX:SPHRY), located in Melbourne Australia, is an ASX 300 company and is a world leader in the development of dendrimer products for pharmaceutical, life science and other applications.

Starpharma's underlying technology is built around dendrimers – a type of synthetic nanoscale polymer that is highly regular in size and structure and well suited to pharmaceutical and medical uses. Starpharma has three core development programs: VivaGel® portfolio, drug delivery, and agrochemicals with the Company developing a number of products internally and others via commercial partnerships.

Starpharma's lead products are based on VivaGel® (SPL7013, astodrimer sodium), a proprietary dendrimer which is a potent microbicidal agent. VivaGel® formulated as a water based gel and delivered vaginally is under clinical development for the management and prevention of bacterial vaginosis (BV). Starpharma has also signed separate licence agreements

with Ansell Limited (ASX:ANN) and Okamoto Industries. Inc., (TSE: JP3192800005) to market a value-added, VivaGel®-condom. The VivaGel® condom has received Conformity Assessment Certification from the TGA in Australia and marketing approval in Japan. Okamoto is the market leader for condoms sold in Japan, which is the world's second largest condom market. Ansell manufactures and sells leading condom brands worldwide, including Lifestyles®, ZERO® and SKYN®. Ansell intends to market the VivaGel® condom under the LifeStyles Dual Protect™ brand name.

In the wider pharmaceutical and life science fields, Starpharma has both partnered and internal programs in Drug Delivery. Drug Delivery partners include GSK, Lilly and AstraZeneca. A number of dendrimer-enhanced, or DEP<sup>TM</sup> versions of existing drugs are under development. The most advanced of these is DEP<sup>TM</sup> docetaxel, a dendrimer-enhanced version of docetaxel (Taxotere®) which is in clinical development. In preclinical studies DEP<sup>TM</sup> docetaxel has shown significant tumourtargeting and superior anti-cancer effects across a range of important cancer types including breast, prostate, lung and ovarian tumour, when compared to Taxotere® (docetaxel).

In agrochemicals Starpharma has a series of partnerships with leading industry players including global leader Adama (formerly Makhteshim Agan) as well as internal programs including an enhanced version of glyphosate (the active ingredient in Roundup®).

### **Forward Looking Statements**

This document contains certain forward-looking statements, relating to Starpharma's business, which can be identified by the use of forward-looking terminology such as "promising", "plans", "anticipated", "will", "project", "believe", "forecast", "expected", "estimated", "targeting", "aiming", "set to", "potential", "seeking to", "goal", "could provide", "intends", "is being developed", "could be", "on track", or similar expressions, or by express or implied discussions regarding potential filings or marketing approvals, or potential future sales of product candidates. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results to be materially different from any future results, performance or achievements expressed or implied by such statements. There can be no assurance that any existing or future regulatory filings will satisfy the FDA's and other authorities' requirements regarding any one or more product candidates nor can there be any assurance that such product candidates will be approved by any authorities for sale in any market or that they will reach any particular level of sales. In particular, management's expectations regarding the approval and commercialization of the product candidates could be affected by, among other things, unexpected trial results, including additional analysis of existing data, and new data; unexpected regulatory actions or delays, or government regulation generally; our ability to obtain or maintain patent or other proprietary intellectual property protection; competition in general; government, industry, and general public pricing pressures; and additional factors that involve significant risks and uncertainties about our products, product candidates, financial results and business prospects. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, estimated or expected. Starpharma is providing this information as of the date of this document and does not assume any obligation to update any forward-looking statements contained in this document as a result of new information, future events or developments or otherwise.
