### **Results for Announcement to the Market**

Starpharma Holdings Limited ABN 20 078 532 180

Half-year ended 31 December 2015

Previous corresponding period: Half-year ended 31 December 2014

				\$
Revenue from ordinary activities (Appendix 4D item 2.1)	Up	404%	to	\$3,681,000
Loss from ordinary activities after tax attributable to members (Appendix 4D item 2.2)	Up (increased loss)	18%	to	\$10,034,000
<b>Net Loss</b> for the period attributable to members (Appendix 4D item 2.3)	Up (increased loss)	18%	to	\$10,034,000

Dividends/distributions (Appendix 4D items 2.4 and, 2.5)	Amount per security	Franked amount per security
Final dividend	Nil	Nil
Interim dividend	Nil	Nil

Record date for determining entitlements to the dividend: Not Applicable

No dividends have been paid or declared by the entity since the beginning of the current reporting period. No dividends were paid for the previous corresponding period.

### Explanation of revenue

(Appendix 4D item 2.6)

Revenue from ordinary activities includes royalty, licensing and research revenue from commercial partners of \$3,483,000 (December 2014: \$258,000) of which US\$2M (A\$2.9M) is an upfront payment for the AstraZeneca drug delivery licence; and interest income on cash invested in term deposits of \$198,000 (December 2014: \$472,000).

### Explanation of net loss

(Appendix 4D item 2.6)

The consolidated loss after tax for the half-year to 31 December 2015 was \$10,034,000 (December 2014: \$8,538,000). Research and development expenses include the costs of the VivaGel®, drug delivery and agrochemical programs, with the increase reflecting the costs associated with the conduct of two clinical programs in parallel - the VivaGel® Phase 3 clinical trials for the prevention of recurrent bacterial vaginosis and the Phase 1 DEP™ docetaxel trial - as well as preparations for the Phase 2 DEP™ docetaxel trial.

A contra research and development expense of \$1,784,000 (December 2014: \$1,603,000) has been recorded for research and development activities eligible under the Australian Government's R&D Tax Incentive program.

### Net tangible assets

(Appendix 4D item 3)

		Half-year ended 31 December
	2015	2014
Net tangible asset backing per ordinary share	\$0.14	\$0.12

The above NTA backing calculation is considered a non-IFRS value in accordance with Australian Accounting Standards and has not been audited or reviewed.

Additional Appendix 4D disclosure requirements can be found in the Directors' Report and the 31 December 2015 half-year financial statements. This report is based on the consolidated 2015 half-year financial statements which have been reviewed by PricewaterhouseCoopers (the Company's auditors) with the Independent Auditor's Review Report included in the 31 December 2015 half-year financial statements.

### **Directors' Report**

The directors have pleasure in presenting this report on the consolidated entity (referred to hereafter as the Group, the Company or Starpharma) consisting of Starpharma Holdings Limited and the entities it controlled at the end of, or during, the half-year ended 31 December 2015.

### **Directors**

The following persons were directors of Starpharma Holdings Limited during the whole of the half-year and up to the date of this report:

R B Thomas (Chairman) J K Fairley (Chief Executive Officer) R A Hazleton

Z Peach P R Turvey

P J Jenkins retired as a director at the conclusion of the AGM on 19 November 2015.

### Principal activities

The principal activities of the Group consist of research, development and commercialisation of dendrimer products for pharmaceutical, life-science and other applications. Activities within the Group are directed towards the development of precisely defined nano-scale materials, with a particular focus on the development of VivaGel® for the management and prevention of bacterial vaginosis, as a condom coating and for prevention of sexually transmitted infections. Starpharma is also applying dendrimers to drug delivery, and in agrochemicals.

### Business strategy, future developments and prospects

There is no change to Starpharma's strategy from the previous period. The Company aims to create value for shareholders through the commercial exploitation of proprietary products based on its dendrimer technology in pharmaceutical, life science and other applications. The Company's key focus is to advance and broaden its product development pipeline for VivaGel®, drug delivery and agrochemicals. It is intended to achieve this by continuing to utilise a combination of internally funded and partnered projects across the portfolio. The Company commercialises its development pipeline with corporate partners via licensing agreements at various stages in a product's development lifecycle; depending on the product, a partner's relative strength of product and market expertise, comparison of current and future potential returns, and the risks involved in advancing the product to the next value inflection point or milestone.

Starpharma remains well positioned to create value in the medium term, due to its deep expertise, strong intellectual property portfolio, diverse development portfolio, a culture and ability to innovate and adapt its technology platform to product opportunities, proven risk management practices, and a solid cash position. The Company will continue using its cash resources to invest in selected research and development activities to achieve its objectives.

### Dividends

No dividends have been paid or declared by the Company since the beginning of the current reporting period. No dividends were paid for the previous corresponding period.

### Review of operations

Key highlights and significant events during the half-year included:

- Signing of a multiproduct drug delivery license with AstraZeneca;
- EU marketing approval granted for VivaGel® BV for the rapid relief of BV including symptoms;
- Completion of A\$32 million equity placement;
- Signing of Memorandum of Understanding to manufacture and sell the VivaGel® condom in the Chinese Government sector;
- AstraZeneca selected second DEP™ candidate under multiproduct drug delivery license;
- Targeted DEP<sup>™</sup> outperforms leading treatments in ovarian cancer model;
- Receipt of A\$3.4M R&D tax incentive refund; and
- Additional US patent granted and 7 year extension of term for VivaGel<sup>®</sup> BV.

#### VivaGel® Program

In September, Starpharma received marketing approval in the European Union (EU) for VivaGel® BV as a stand-alone gel for the topical treatment and rapid relief of bacterial vaginosis (BV) including symptoms. This indication is for the short term use of VivaGel® once a day for 7 days. The EU approval allows VivaGel® BV to be marketed in the European Economic Area (EEA), which includes the 28 countries of the EU plus the European Free Trade Association (EFTA) countries, providing access to a population of more than 260 million women. The approval was based on the efficacy and demonstrated excellent symptomatic relief shown in earlier VivaGel® Phase 3 clinical trials, with the EU approval also being used to support regulatory and marketing approvals for VivaGel® BV in other countries that recognise the approval. Negotiations regarding marketing rights for VivaGel® BV are well advanced with a number of potential commercial partners and have been further accelerated by the EU approval. These commercial discussions involve partners with extensive experience in women's health, and cover Western and Eastern Europe, Asia Pacific, Latin America, Canada and the Middle East.

Starpharma is also developing the VivaGel® BV product for the prevention of recurrent BV. There is no approved therapeutic option currently available for recurrent BV, which affects 50-60% of BV sufferers. Starpharma is conducting two double-blinded, placebo controlled Phase 3 trials across the US, Canada, Mexico, Europe and Asia, with each trial planned to enrol around 600 women. The trials are progressing well, with around 100 sites actively recruiting participants and over 75% of participants recruited. The study was granted a Special Protocol Assessment (SPA) by the US FDA which reduces Starpharma's regulatory risk through a binding trial design. In addition, there has been agreement on the trial design granted by the European regulatory authority.

In December, Starpharma signed a Memorandum of Understanding (MOU) with a Chinese company who is a major provider of condoms to the Chinese government. The MOU outlines the key commercial and other terms for Starpharma's partner to manufacture and sell a VivaGel® coated condom to the Government segment of the Chinese market. The Government market in China is open to local Chinese companies and manufacturers, with an annual demand estimated at approximately 3 billion condoms. The market spans both the Birth Control Department and the Disease Prevention Department of the Chinese Government. Following the signing of this MOU, Starpharma will work with its partner to proceed with the regulatory process in preparation for market launch and to finalise a complete and binding commercial agreement.

The VivaGel® condom is being marketed in Australia under Ansell's Lifestyles® Dual Protect™ brand. Starpharma and Ansell are working towards the further roll-out of the VivaGel® condom in additional territories, with a number of regulatory submissions under review. Commercial discussions are also occurring in several non-Ansell territories. Okamoto, licensee for the VivaGel® condom in the Japanese market, and Starpharma continue to actively work with the Japanese regulatory authorities to clarify the classification of the VivaGel® condom in Japan.

### **Drug Delivery Program**

Important progress has also been achieved in both the partnered and internal drug delivery programs.

In September, Starpharma signed a multi-product licensing agreement with global pharmaceutical giant, AstraZeneca, for the development of DEP<sup>TM</sup> enhanced drugs from a defined family of targets. For the initial DEP<sup>TM</sup> product, which is an oncology compound, development and launch milestone payments of up to US\$64 million, and sales milestone payments of up to an additional US\$60 million (total US\$124 million) are potentially payable, plus royalties on net sales. In December, AstraZeneca selected the second candidate, another oncology molecule, under the agreement. Potential milestones of up to US\$93 million will be payable on the second, and each subsequent DEP<sup>TM</sup> product, plus royalties on net sales. AstraZeneca will fund all development and commercialisation costs for these two candidates and any further candidates under the agreement. Importantly, Starpharma's DEP<sup>TM</sup> platform remains unencumbered and available for licensing in the vast majority of oncology and other applications for additional partner deals.

The Phase 1 human clinical trial of a dendrimer enhanced version of docetaxel (DEP™ docetaxel) is progressing well and continues to show very encouraging clinical data. DEP™ docetaxel is a patented dendrimer enhanced version of the anti-cancer drug docetaxel (Taxotere®). DEP™ docetaxel has been dosed at levels in excess of the most commonly used dose for Taxotere® of 75mg/m², with no bone marrow toxicities (including neutropenia) or hair loss observed or reported to date. The trial is being conducted across four Australian sites with more than 75% of patients having been recruited and administered multiple cycles of treatment. The primary objective of the trial is to establish the maximum tolerated dose (MTD) and dose limiting toxicities of DEP™ docetaxel and to identify the dose for the Phase 2 trial.

Starpharma recently reported very positive preclinical results in relation to its targeted drug delivery technology, which combines unique targeting capabilities with cytotoxic drugs. One of Starpharma's novel antibody-targeted DEP<sup>TM</sup> conjugates resulted in complete tumour regression and 100% survival in an ovarian cancer model, significantly outperforming Roche's Kadcyla<sup>®</sup>. Targeted therapies for cancer had combined sales in excess of US\$1 billion in 2014, and are expected to grow to US\$9 billion annually by 2023, with Kadcyla<sup>®</sup> annual sales growing at 144% (source: Roots Analysis, Antibody Drug Conjugates Market, 2014-2024).

Substantial progress has also been made in building upon Starpharma's DEP™ pipeline of potential internal clinical candidates with several preclinical studies underway. The recent equity raising will also allow Starpharma to accelerate and broaden its drug delivery preclinical and clinical pipeline.

### **Agrochemical Program**

Starpharma's Priostar® dendrimers are being developed and trialled in crop protection formulations under multiple agreements with industry leading global partners. In the half-year a number of new partner agreements have been signed or extended with major agrochemical companies for the European, Asian and North American markets; most recently a Priostar® collaboration was signed with a major Japanese agrochemical company. Negotiations are also underway for the licensing of commercial rights to Priostar® to enhance a number of existing agrochemical products.

In addition to arrangements with industry partners, Starpharma is developing a small number of its own formulations based on successful agrochemical products which are now generic. Recent regulatory compliant field trials on Priostar® enhanced versions of several major herbicide and fungicide formulations showed commercially compelling product benefits, including improved effectiveness and faster onset of action. Further, Starpharma has recently developed more environmentally friendly formulations of major herbicides and insecticides using Priostar®, which are also now the subject of commercial discussions.

### Review of Financials

For the half-year ended 31 December 2015 the consolidated entity incurred an operating loss after income tax of \$10,034,000 (December 2014: \$8,538,000).

	Half-Year Ended 31 December			
Summary of consolidated results	2015 \$′000	2014 \$'000		
Revenue from continuing operations	3,681	730		
Other income, including grants	59	3		
Research & development (net of R&D tax incentive)	(11,685)	(7,097)		
Administration and finance costs	(2,089)	(2,174)		
Loss attributable to members	(10,034)	(8,538)		

#### Income statement

Revenue consists of royalty, licensing and research revenue from commercial partners of \$3,483,000 (December 2014: \$258,000) which includes the US\$2M (A\$2.9M) upfront payment for the AstraZeneca drug delivery licence; and interest income on cash invested in term deposits of \$198,000 (December 2014: \$472,000).

The consolidated loss after tax for the half-year to 31 December 2015 was \$10,034,000 (December 2014: \$8,538,000). Research and development expenses include the costs of the VivaGel®, drug delivery and agrochemical programs, with expenditure (including patenting costs) fully expensed in the current and previous corresponding periods. The increase in research and development expenditure reflects the costs associated with the conduct of two clinical programs in parallel - the VivaGel® Phase 3 clinical trials for the prevention of recurrent bacterial vaginosis and the Phase 1 DEP™ docetaxel trial – as well as preparations for the Phase 2 DEP™ docetaxel trial.

A contra research and development expense of \$1,784,000 (December 2014: \$1,603,000) has been recorded for research and development activities eligible under the Australian Government's R&D Tax Incentive program.

#### Balance sheet

At 31 December 2015 the Group's cash position was \$54,688,000 (June 2015: \$30,848,000), the increase reflecting the completion of an equity placement in the half year, raising \$30,697,000 of net proceeds after transaction costs. Trade and other receivables of \$2,399,000 (June 2015: \$4,232,000) includes \$1,788,000 receivable from the Australian Government under the R&D Tax Incentive program.

The cash balance does not include the \$1,915,000 proceeds from the Share Purchase Plan that closed in January 2016.

#### Statement of cash flows

Net operating cash outflows of \$7,632,000 (December 2014: \$5,125,000) for the half-year reflects receipts from partners and grants, offset by costs associated with the Company's VivaGel®, drug delivery and agrochemical programs. Net cash inflows from financing activities include the net proceeds from Starpharma's equity placement.

### Earnings per share

<u> </u>		Half-year ended 31 December
	2015 Cents	2014 Cents
Basic loss per share	(3.10)	(2.83)
Diluted loss per share	(3.10)	(2.83)

### Matters subsequent to the end of the financial half-year

On 22 January 2016 the Company received \$1,915,000 under the completed Share Purchase Plan (SPP) and shareholders were issued 2,623,361 ordinary shares. No other matters or circumstances have arisen since 31 December 2015 that have significantly affected, or may significantly affect:

- (a) the consolidated entity's operations in future financial years, or
- (b) the results of the operations in future financial years, or
- (c) the consolidated entity's state of affairs in future financial years.

### Rounding of amounts

The Company is of a kind referred to in Class Order 98/100, issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the directors' report and financial report. Amounts in the directors' report and interim financial report have been rounded off to the nearest thousand dollars in accordance with that Class Order.

### Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 6.

This report is made in accordance with a resolution of the directors.

Rob Thomas AM

Melbourne, 17 February 2016

Chairman

## **Auditor's Independence Declaration**

### **Auditor's Independence Declaration**

As lead auditor for the review of Starpharma Holdings Limited for the half-year ended 31 December 2015, I declare that to the best of my knowledge and belief, there have been:

- a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- b) no contraventions of any applicable code of professional conduct in relation to the review.

This declaration is in respect of Starpharma Holdings Limited and the entities it controlled during the period.

Jon Roberts Partner

PricewaterhouseCoopers

### Notes to the consolidated financial statements

31 December 2015

### Contents

1.	Basis of preparation of half-year report	14
2.	Critical accounting estimates and judgments	14
3.	Segment information	14
4.	Revenue and other income	14
5.	Expenses	14
6.	Contributed equity	15
7.	Events occurring after the balance sheet date	16
8.	Earnings per share	16

### 1. Basis of preparation of half-year report

This condensed consolidated interim financial report for the half-year reporting period ended 31 December 2015 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2015 and any public announcements made by Starpharma Holdings Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

### 2. Critical accounting estimates and judgments

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies.

The Group's research and development activities are eligible under an Australian Government tax incentive for eligible expenditure from 1 July 2011. Management has assessed these activities and expenditure to determine which are likely to be eligible under the incentive program. For the half-year to 31 December 2015, the Group has recorded a contra research and development expense of \$1,784,000.

### 3. Segment information

The Group has determined that on the basis of internal reporting and monitoring to the Chief Executive Officer, who is the chief operating decision maker, the Group operates in one business segment, being the discovery, development and commercialisation of dendrimers for pharmaceutical, life science and other applications.

### 4. Revenue and other income

Consolidated		Half-year
Revenue and other income	2015 \$′000	2014 \$'000
Royalty, customer & license revenue	3,483	258
Interest revenue	198	472
Total revenue	3,681	730
Total other income (including government grants)	59	3
Total revenue and other income	3,740	733

Royalty, customer & license revenue includes a non-refundable signature payment of US\$2 million (A\$2.9 million) from a multi-product licencing agreement signed with AstraZeneca in September 2015 for the use of the DEP® drug delivery platform in the development and commercialisation of certain AstraZeneca compounds. Interest revenue predominately relates to interest earned on Australian dollar cash deposits.

### Expenses

Consolidated		
_		Half-year
	2015 \$′000	2014 \$'000
Loss from continuing operations before income tax expense includes the following items:		
R&D Tax Incentive (contra expense)	(1,784)	(1,603)
Depreciation	155	96
Amortisation	312	479
Rental expense on operating leases	266	302
Defined contribution superannuation expense	240	209

### 6. Contributed equity

### (c) Ordinary shares

As at 31 December 2015 there were 364,440,928 issued fully paid ordinary shares. A further 2,623,361 ordinary shares were issued on 22 January 2016 following completion of a Share Purchase Plan.

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the company in proportion to the number of, and amounts paid, on the shares held. Ordinary shares have no par value and the company does not have a limited amount of authorised capital.

### (d) Employee Share Plan (\$1,000 Plan)

Shares issued under the Starpharma Holdings Limited Employee Share Plan (\$1,000 Plan) to eligible staff are granted for no consideration and are escrowed for 3 years while participants are employed by the Company. An allocation of 43,232 shares was issued to eligible staff on 25 January 2016, subsequent to the reporting date.

#### (e) Employee Performance Rights Plan

There were 1,466,810 shares issued on the vesting on performance rights and 3,709,246 performance rights issued during the financial half-year.

As at 31 December 2015 the Company had on issue the following Employee Performance Rights under the Starpharma Holdings Limited Employee Performance Rights Plan.

Grant date	Vesting date	Holding Lock date	Number under rights
22 November 2013 <sup>1</sup>	22 November 2016	22 November 2017	250,000
20 November 2014 <sup>2</sup>	30 September 2016	30 September 2017	450,000
20 November 2014 <sup>2</sup>	30 September 2017	N/A	450,000
20 November 2014 <sup>2</sup>	30 September 2017	30 September 2018	300,000
30 January 2015	30 September 2016	N/A	996,625
30 January 2015	30 September 2017	N/A	996,625
30 January 2015	30 September 2018	N/A	854,250
11 November 2015	30 June 2017	N/A	519,200
11 November 2015	30 September 2018	N/A	2,076,800
19 November 2015 <sup>3</sup>	30 June 2017	N/A	219,395
19 November 2015 <sup>3</sup>	30 September 2018	N/A	893,851

<sup>&</sup>lt;sup>1</sup> Approved by shareholders at the Annual General Meeting on 22 November 2013; securities allotted on 6 December 2013.

### (f) Capital risk management

The Group's and the parent entity's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders.

### 7. Events occurring after the balance sheet date

On 22 January 2016 the Company received \$1,915,000 under the completed Share Purchase Plan (SPP) and shareholders were issued 2,623,361 ordinary shares. There are no other significant events occurring since 31 December 2015 that have significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of the Group.

### 8. Earnings per share

	Half-year		
	2015	2014	
Basic loss per share (cents)	(3.10)	(2.83)	
Diluted loss per share (cents)	(3.10)	(2.83)	
Net loss attributable to members of Starpharma Holdings Limited used as the numerator in calculating diluted and basic earnings per share (\$'000)	(10,034)	(8,538)	
Weighted average number of ordinary shares outstanding during the year used as the denominator in calculating diluted and basic earnings per share (shares)	323,420,707	301,254,395	

As at 31 December 2015 the Company had on issue 8,006,746 (30 June 2015: 6,469,100) performance rights that are not considered dilutive.

The rights have not been included in the determination of basic earnings per share. The rights granted are considered to be potential ordinary shares and have been included in the determination of diluted earnings per share to the extent to which they are dilutive. Given the entity is currently loss making, the potential shares are anti-dilutive and have therefore not been included in the diluted earnings per share calculation.

<sup>&</sup>lt;sup>2</sup> Approved by shareholders at the Annual General Meeting on 20 November 2014; securities allotted on 3 December 2014.

<sup>&</sup>lt;sup>3</sup> Approved by shareholders at the Annual General Meeting on 19 November 2015; securities allotted on 2 December 2015.

### Directors' declaration

In the directors' opinion:

- (a) the financial statements and notes set out on pages 7 to 16 are in accordance with the *Corporations Act 2001*, including:

  (i) complying with *Accounting Standards*, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
  - (ii) giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and of its performance for the half-year ended on that date; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the directors.

Rob Thomas AM Chairman

Melbourne, 17 February 2016

### Independent auditor's review report to the members

# Independent auditor's review report to the members of Starpharma Holdings Limited

### Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Starpharma Holdings Limited (the company), which comprises the consolidated balance sheet as at 31 December 2015, the consolidated income statement and consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, selected explanatory notes and the directors' declaration for Starpharma Holdings Limited (the consolidated entity). The consolidated entity comprises the company and the entities it controlled during that half-year.

### Directors' responsibility for the half-year financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement whether due to fraud or error.

### Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Australian Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the consolidated entity's financial position as at 31 December 2015 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Starpharma Holdings Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### *Independence*

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

### Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Starpharma Holdings Limited is not in accordance with the *Corporations Act 2001* including:

### PricewaterhouseCoopers, ABN 52 780 433 757
