

VIRALEZE™ antiviral nasal spray registered in Saudi Arabia

- **VIRALEZE™ antiviral nasal spray has been registered for sale in Saudi Arabia**
- **Starpharma is well advanced in negotiations for distribution of VIRALEZE™ in Saudi Arabia**
- **VIRALEZE™ is a broad-spectrum antiviral nasal spray that contains SPL7013, which has potent antiviral and virucidal activity in multiple respiratory viruses, including inactivation of >99.9% of the Delta variant of SARS-CoV-2, in laboratory studies that have been published in international, peer reviewed journals**

Melbourne, Australia; 14 December 2021: Starpharma (ASX: SPL, OTCQX: SPHRY) today announced that VIRALEZE™ antiviral nasal spray has been registered for sale in Saudi Arabia. This is the first registration for VIRALEZE™ in the Middle East and registration in Saudi Arabia is an important step for other countries in the region.

Saudi Arabia has a population of ~35 million and contributes almost half of the annual GDP in the GCC (Gulf Cooperation Council) region.

Starpharma is well advanced in negotiations for distribution of VIRALEZE™ in Saudi Arabia. In the meantime, consumers in Saudi Arabia can purchase VIRALEZE™ online.

Dr Jackie Fairley, Starpharma CEO commented: “The registration of VIRALEZE™ in Saudi Arabia, our first in the Middle East, marks another important milestone for the product. Starpharma is advancing negotiations with a local distributor in Saudi Arabia and the GCC region for VIRALEZE™, and we look forward to making the product available in that region as soon as possible.”

VIRALEZE™ is a broad-spectrum antiviral nasal spray that contains SPL7013, which has been shown to have potent antiviral and virucidal activity in multiple respiratory viruses, including inactivation of >99.9% of the Delta variant of SARS-CoV-2, in laboratory studies

Antiviral laboratory testing of SPL7013 earlier this year also confirmed it is active in other respiratory viruses, including influenza as well as two other pandemic coronaviruses - Middle East respiratory syndrome coronavirus (MERS-CoV) or “MERS” and severe acute respiratory syndrome (SARS-CoV) or “SARS”. There are no vaccines available for MERS or SARS.

This latest registration follows recent registrations for VIRALEZE™ in Vietnam and New Zealand.

VIRALEZE™ Antiviral Nasal Spray

VIRALEZE™ is a broad-spectrum antiviral nasal spray. The antiviral agent in VIRALEZE™, referred to as SPL7013, has been shown to have potent antiviral and virucidal activity in multiple respiratory viruses (including influenza and RSV) and multiple variants of SARS-CoV-2, including inactivation of >99.9% of the highly infectious Delta variant, in laboratory studies. VIRALEZE™ is applied in the nose to provide a physical barrier - between viruses and the nasal mucous membrane - that traps and irreversibly inactivates virus. Importantly, the mechanism of action of VIRALEZE™ means that mutations of the spike protein that make SARS-CoV-2 more infectious, as occurred for the Delta strain, appear to make the virus more susceptible to trapping and blocking by SPL7013.

VIRALEZE™ is registered in Europe, Vietnam, India, New Zealand and Saudi Arabia, and available in certain markets online. VIRALEZE™ is partnered with LloydsPharmacy in the UK, ADMENTA Italia Group in Italy, and HealthCo/TBL in Vietnam. VIRALEZE™ is not registered for sale or supply in Australia.

Starpharma acknowledges the \$1 million in funding for the development of VIRALEZE™ provided by the Australian Government's Medical Research Future Fund (MRFF) Biomedical Translation Bridge (BTB) Program, with support from UniQuest. Delivered by MTPConnect, the Australian Government's BTB program is a \$22.3 million MRFF initiative that provides up to \$1 million in matched funding to nurture the translation of new therapies, technologies and medical devices through to proof of concept to turn innovative medical ideas into reality

About Starpharma

Starpharma Holdings Limited (ASX:SPL, OTCQX:SPHRY) is a global biopharmaceutical company and a world leader in the development of new pharmaceutical and medical products based on proprietary polymers called dendrimers, with programs for respiratory viruses, DEP® drug delivery and VivaGel®. Starpharma has developed VIRALEZE™, an antiviral nasal spray that is registered for sale in the Europe, Vietnam, India, Saudi Arabia, and New Zealand, and available outside Australia in certain markets online. VIRALEZE™ is not approved for sale or supply in Australia. SPL7013 is utilised in approved products - the VivaGel® condom and VivaGel® BV. VivaGel® BV has been licensed in >160 countries, is registered in >45 countries and available for sale in the UK, Europe, Japan, South East Asia, South Africa, Australia and New Zealand.

As a leading company in dendrimer-based drug delivery, Starpharma's proprietary drug delivery platform technology, DEP®, is being used to improve pharmaceuticals, to reduce toxicities and enhance their performance. There are numerous internal and partnered programs underway to develop DEP® versions of existing drugs, particularly in the area of anti-cancer therapies. DEP® partnerships include oncology programs with AstraZeneca, with Merck in the area of Antibody Drug Conjugates (ADCs), with Chase Sun in the area of anti-infectives and other world leading pharmaceutical companies. Starpharma's partnered DEP® programs have the potential to generate significant future milestones and royalties.

Forward Looking Statements

This document contains certain forward-looking statements, relating to Starpharma's business, which can be identified by the use of forward-looking terminology such as "promising", "plans", "anticipated", "will", "project", "believe", "forecast", "expected", "estimated", "targeting", "aiming", "set to", "potential", "seeking to", "goal", "could provide", "intends", "is being developed", "could be", "on track", or similar expressions, or by express or implied discussions regarding potential filings or marketing approvals, or potential future sales of product candidates. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results to be materially different from any future results, performance or achievements expressed or implied by such statements. There can be no assurance that any existing or future regulatory filings will satisfy the FDA's and other authorities' requirements regarding any one or more product candidates nor can there be any assurance that such product candidates will be approved by any authorities for sale in any market or that they will reach any particular level of sales. In particular, management's expectations regarding the approval and commercialization of the product candidates could be affected by, among other things, unexpected trial results, including additional analysis of existing data, and new data; unexpected regulatory actions or delays, or government regulation generally; our ability to obtain or maintain patent or other proprietary intellectual property protection; competition in general; government, industry, and general public pricing pressures; and additional factors that involve significant risks and uncertainties about our products, product candidates, financial results and business prospects. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, estimated or expected. Starpharma is providing this information as of the date of this document and does not assume any obligation to update any forward-looking statements contained in this document as a result of new information, future events or developments or otherwise. Clinical case studies and other clinical information given in this document are given for illustrative purposes only and are not necessarily a guide to product performance and no representation or warranty is made by any person as to the likelihood of achievement or reasonableness of future results. Nothing contained in this document nor any information made available to you is, or shall be relied upon as, a promise, representation, warranty or guarantee as to the past, present or the future performance of any Starpharma product.
